HYBRID

SLIM DIAL™

CONTROLLERS

Simple sophistication at an affordable price. Featuring an attractive, slim-line cabinet and fast, simple programming, Irritrol Systems' Slim Dial™ controller provides the cost-efficient answer to the watering requirements of almost any residential application.

This innovative hybrid controller also provides the ultimate in programming ease. Its user-friendly Guided Programming™ feature and large liquid crystal display (LCD) lead users through step-by-step programming for fast, easy controller operation. And a convenient, at-a-glance program review makes it simple to identify the preset watering program.

Slim Dial controller — the new profile of performance.

Irritrol[®]
SYSTEMS

SLIM DIAL™

CONTROLLERS

6 station model (indoor)
